GitHub: <https://github.com/kg-phantom>

Portfolio: <https://kg-phantom.github.io/kyrsten-urbayan-portfolio/>

Full-stack web developer utilizing a background in illustration and graphic design to develop web applications. Eager to apply experience with HTML, CSS, JavaScript, Node.js, and SQL as well as skills in problem-solving, mathematics, and teamwork.

Technical Skills

Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, Responsive Design, ReactJS

Backend: MySQL, Sequelize, MongoDB, Mongoose, Express, Node

Projects

Budget Tracker | <https://my-budget-tracker101.herokuapp.com/>

- A budget tracker PWA for users to track their withdrawals and deposits with or without an internet connection in order to maintain an accurate account balance while traveling.
- Converted the app into a PWA and utilized IndexedDB to handle offline data.
- Tools/Languages: JavaScript, Node, Express, MySQL, Sequelize

The Tech Blog | <https://the-tech-blog-24601.herokuapp.com/>

- A CMS-style blog site for developers to publish articles, blog posts, thoughts, and opinions for others to read and comment on.
- Built the styled frontend and robust backend for storing and fetching data.
- Tools/Languages: HTML, CSS, JavaScript, Node, Express, MySQL, Sequelize, Heroku

Note Taker | <https://github.com/kg-phantom/note-taker> |

<https://mysterious-savannah-48786.herokuapp.com/>

- Displays saved notes and stores newly written notes.
- Utilized an Express.js backend to store note data.
- Tools/Languages: JavaScript, Node, Express, Heroku

Work Experience

Homework Buddy | Glendora, CA | Tutor

May 2018 - May 2021

- Mentioned by name in two five-star Google reviews.
- Adapted lesson plans and teaching styles to the unique needs of each student.
- Collaborated with fellow tutors to consolidate notes and lesson plans for shared students.

Education

Full-Stack Development Certificate UCLA Extension | Online | August 2021 - January 2022

Completed 15 credits towards Associates in Mathematics: Citrus College | Glendora, CA | 2020
